## CLUB IMPROVEMENTS

We have been busy working behind the scenes to look at ways we can improve and update the club.

We are replacing the curtains with blinds, existing chairs and bar stools with modern leather ones and are looking to upgrade the tables.

We have purchased new furniture for the smoking area and will be holding a "clean up" work party in coming weeks to ensure the outside seating areas are summer ready.

We have also had an upgrade to the lighting in the club.

We will be looking at decorating the club and refurbishing the bar over the coming months - we will keep you posted!

## NEWS FROM THE BAR

On 13<sup>th</sup> April we switched to our new brewery - Carlsberg Marston's.

With the new brewery there have been some exciting changes which have included the introduction of Carlsberg Pilsner, Somersby Cider, Shipyard Pale Ale and Strongbow Dark Fruits.

To make way for the new products we have had to say goodbye to Orchard View Cider, Bear Island Pale Ale and Singha.

Rachel will be announcing summer products soon!
